

Applications

Cable
drum
lifting.

Description

These accessories are adapted to many cable drums*. They fit holes with diameters from 55 to 83 mm. Slings and shackles not provided.

* ABN/ BBN/ CBN/ DBN/ EBN/ FBN/ GBN/ HBN/ IBN type following NF B 55-007 French standard.

Functioning

Once both shackles and 2-legged cable/ chain/ textile slings have been put together with the hooks, insert them either side of the cable drum axle, teeth downwards. Lifting ensures the hooks' locking in position.

Particular instructions

- The hooks and cable drums' bearing surface must be free from grease or oil.
- Insert hooks in the right direction, ie. teeth downwards.
- Working temperature: -20° to +100°C.

General characteristics

- Manufacture without load bearing welds.
- Hot epoxy coating.
- Safety factor: 4 in accordance with the European Materials Handling Federation (1998 FEM 3rd edition) ; working group A5 and lifting speed 60 m/ mn.
